

In this usage guideline, we will be explaining how you can Job Board Add-on for Elementor to design the awesome job listing and Job Details page.

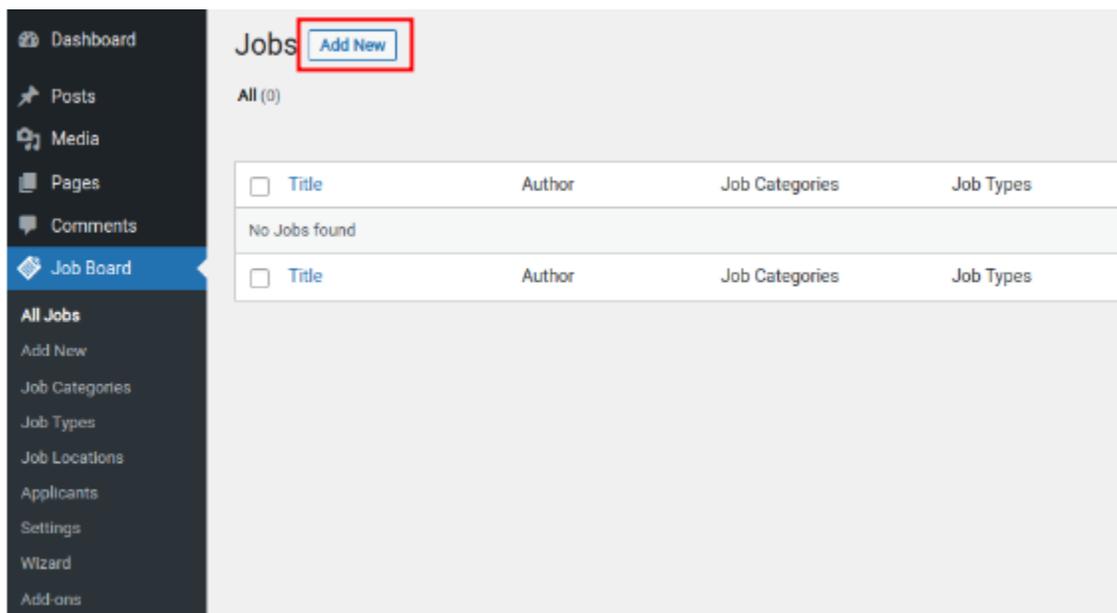

How to use the SJB Job Widget

Step 1: Plugin Installation

Download and install the Job Board Add-on for Elementor on your website

Step 2: Job Insertion

Insert the job into the Simple Job Board from the dashboard.

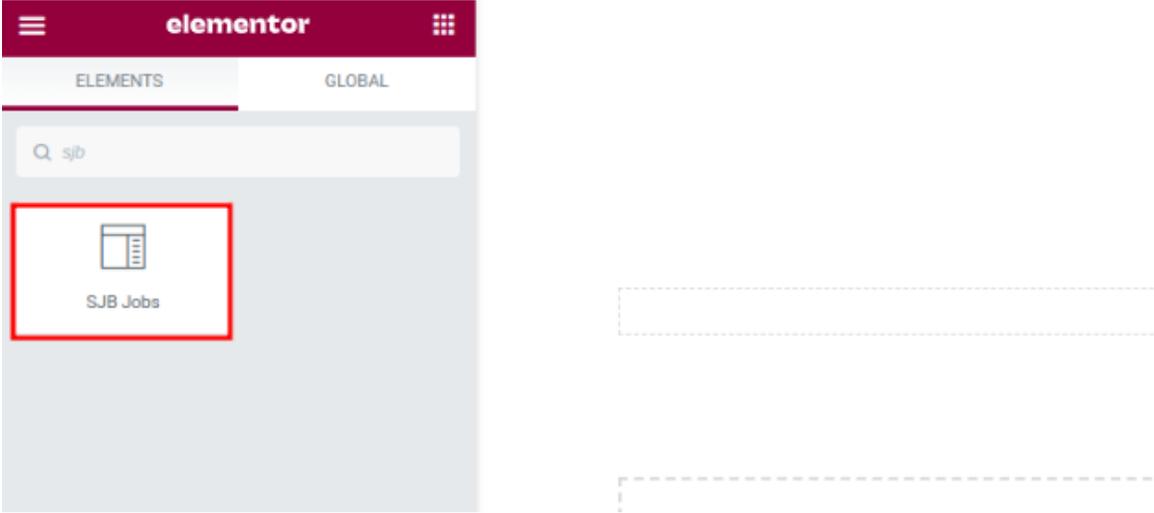

Step 3: Add the “SJB Jobs” Widget

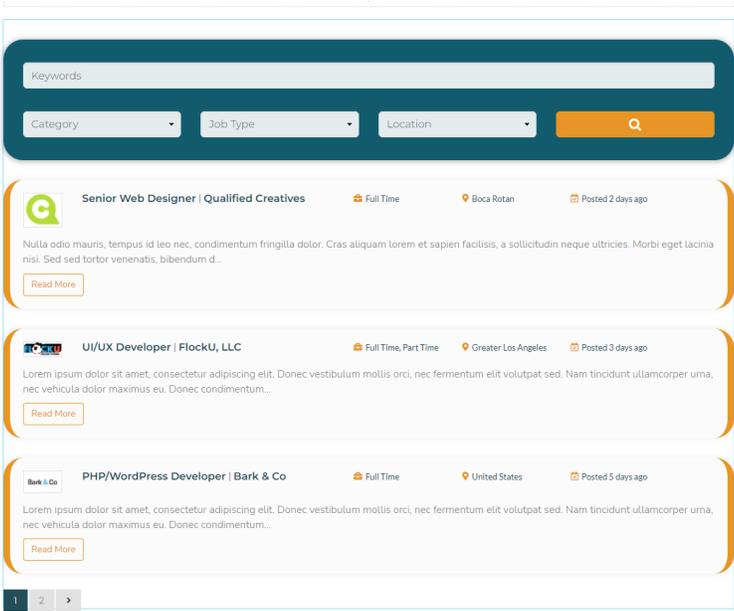

Create a page and edit it with Elementor.

In Elementor page builder, search the keyword “sjb” and drop the **SJB Jobs** widget into your page. Don’t forget to press the update button.

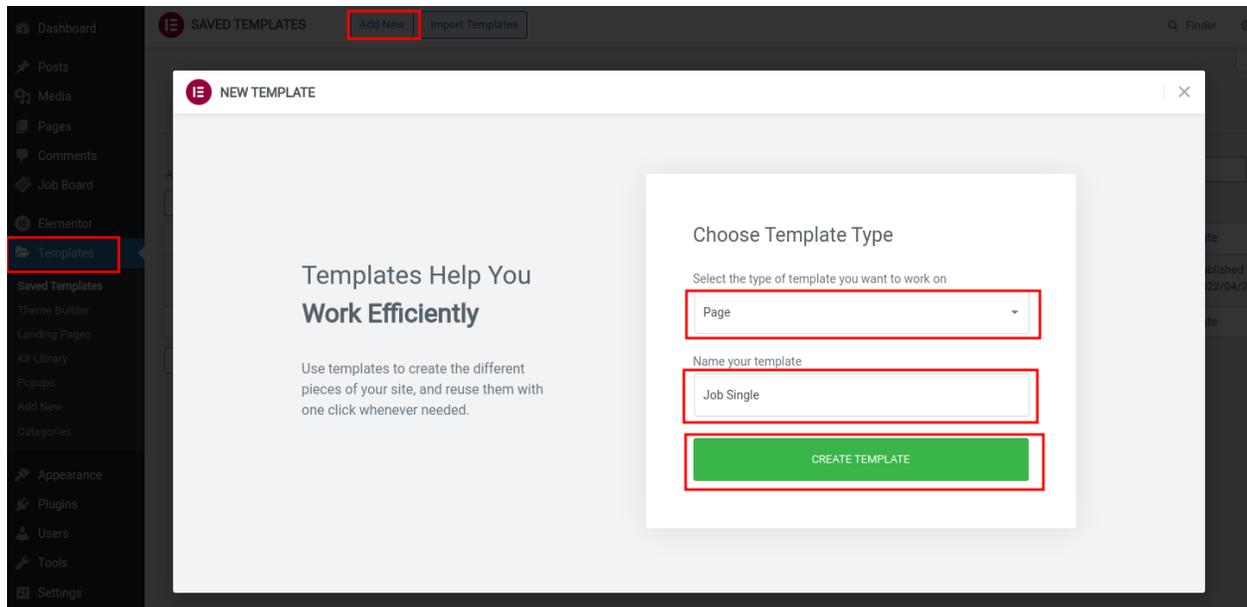

After dropping the widget you can style the job listing page.

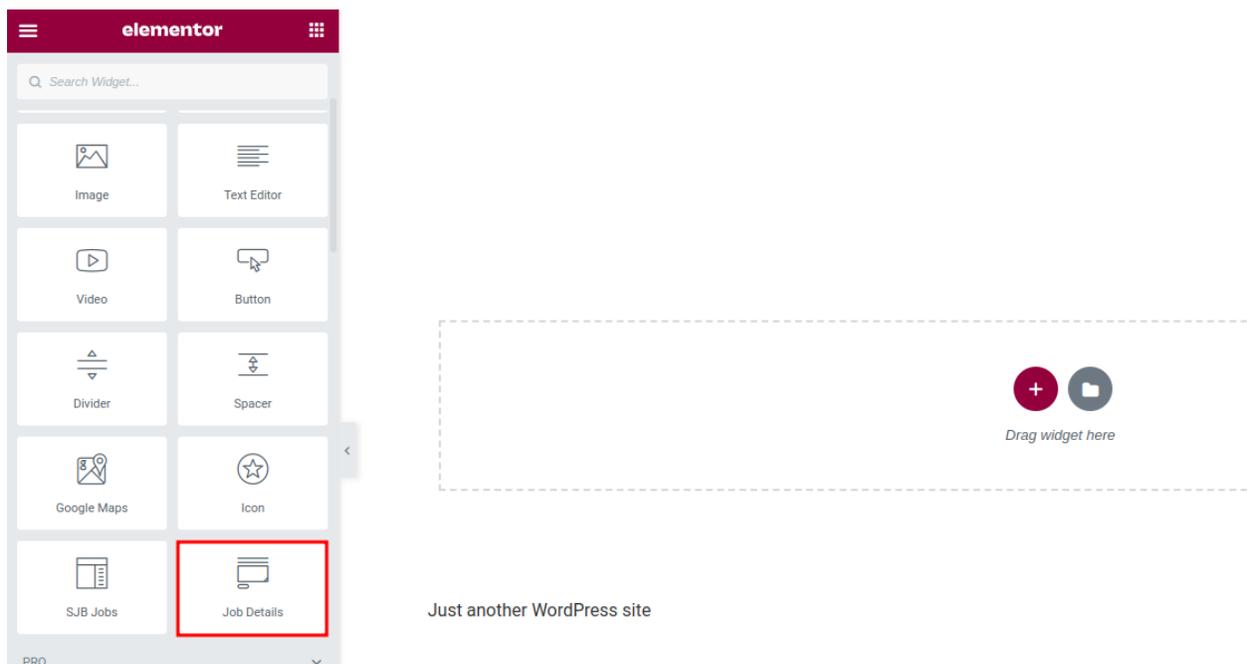

Step 4: Add “Job Details” Widget

Go to the “Templates” then press “Add New” and then select the template as “Page”. Give the name of the page template and then press the “Create Template” button.

After creating a template, you will land on the Elementor builder. Drop the “Job Details” widget for designing the single job page layout.

Using the “Job Details” widget, you can style the job details page. Don’t forget to press the update button
